Permit # _____

Fee: _____

Community Development Department

APPLICATION FOR DEMOLITION PERMIT

All commercial and public buildings that are considering remodeling or demolition must have an asbestos inspection by a licensed professional and file an Asbestos Notification form with [IDPH](#) or [IEPA](#) addressing asbestos concerns *prior* to any work being started, even if asbestos is not present. These forms are available at the Community Development Department at City Hall.

Inspections are required for the proper abandonment of both sewer and water connections. Inspections are required for excavation, fill and surface restoration.

The City of Ottawa will enforce the provisions of [Chapter 33](#), The International Building Code, 2006. Construction Documents may be required.
