ATTENTION: NEWS DEPARTMENT

PRESS RELEASE

Contractors for the streetscape project planned for the 600 block of LaSalle Street expect to start the project on Tuesday, March 22. City of Ottawa Street Commissioner Dale Baxter has announced that contractors are to begin on the east side of that block where they will remove and replace sections of curb and sidewalk and begin the construction of the bump-outs. Contractors will be working alternately between the east and the west sides of that block until the work is completed. Drivers should be aware that the parking lanes in that block will be closed to vehicle parking according to which side of the street contractors are working.

Weather permitting, the total streetscape project is expected to be completed within approximately 6 weeks. Those wishing to park in the 600 block during that time should be aware that on-street parking may be limited and/or restricted at various times throughout the construction process.
